

Guaranteed Asset Protection

GAP Protects You When The Worst Happens.

In the unfortunate event your vehicle is declared a total loss your auto insurance company will typically pay the current market value of your vehicle minus your deductible.

But if your loan or lease balance is higher than the market value of your vehicle then you would be responsible for paying off the difference, including your deductible.

This can be expensive.

Guaranteed Asset Protection or gap, is one way to protect yourself from falling into this financial situation. GAP coverage basically erases the financial gap. **You won't owe anything on your totaled car, leaving you clear to purchase a new vehicle. It's a great way to give yourself peace of mind while owning and driving a brand new vehicle.**

A Walser Autoguard Product

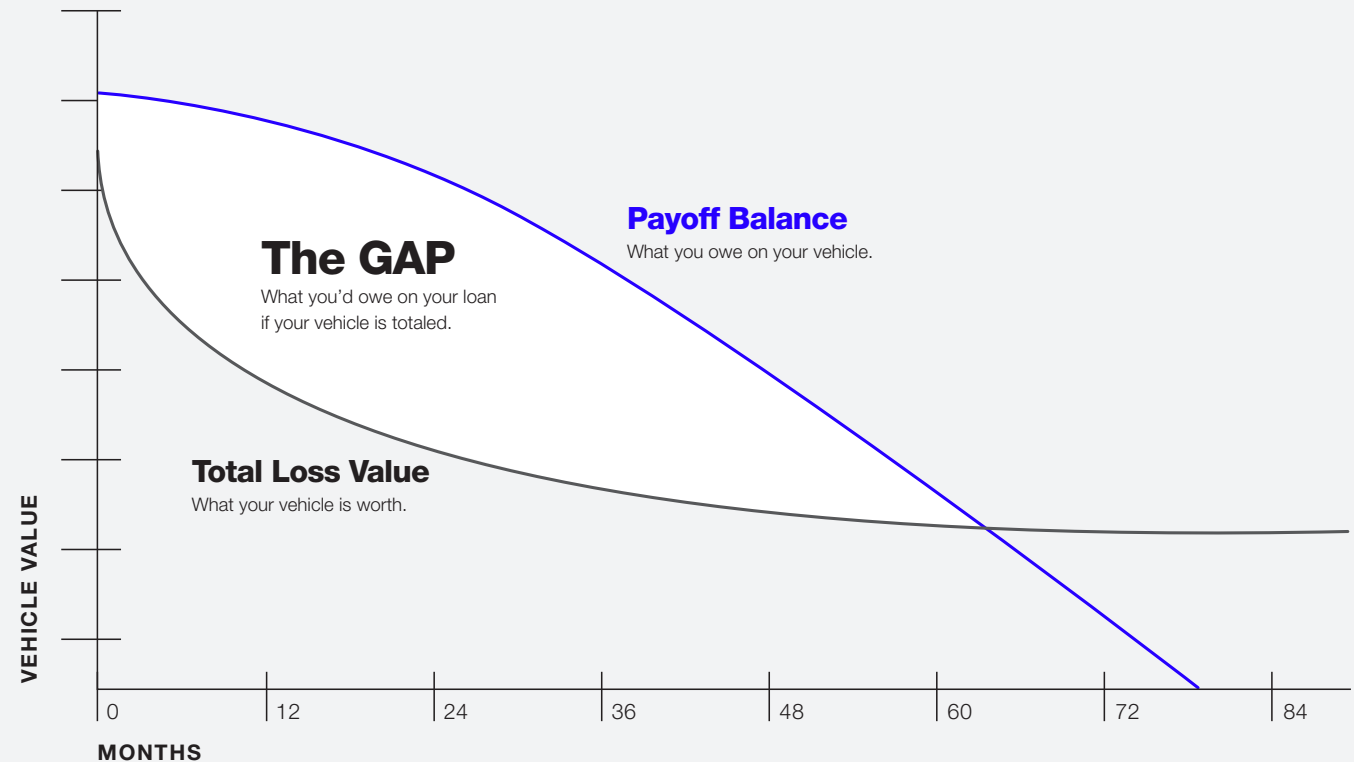

WalserAutoguard.com

How it works.

The GAP

It's the area of your financial liability in the event of a total loss of your vehicle.

In the early years of vehicle ownership what you owe on your vehicle loan is typically greater than the amount you'll receive from your insurance.

EXAMPLE

Total Loss Value.\$13,000
Insurance Deductible	-\$1,000
Proceeds from Insurance\$12,000
<hr/>	
Amount Owed the Loan/Lease.\$18,500
Proceeds from Insurance	-\$12,000
<hr/>	
The Difference\$(6,500)

Is the amount you receive from your insurance company enough to pay-off your loan or lease balance if your vehicle is declared a total loss?

In this example, the answer is no. **The Difference** illustrates what you would have to pay your lender without GAP. Don't risk getting hit with a large unexpected cost like this, get GAP coverage to protect yourself.
